Subject: Change Notice CMP Project – “Consultant Matrix Project”

Yvan Proteau  
CIO

At Yellow Pages Group Co. (“YPG”) and Trader Corporation (“Trader”), we are committed to keeping our service providers informed about any changes that may affect them. The purpose of this letter is to notify you of important changes concerning the hiring of consultants for the IS/IT department of YPG and Trader.

After careful review of our IS/IT policies and procedures, we have decided to define the type of consultants we are looking for at YPG and Trader. As such, effective March 1st, 2009, we will be selecting IS/IT consultants based on predefined profiles. Each profile will have its own Consultant Authorized Rate Table (CART), which will set out the daily wage to be paid based on several factors including consultant experience.

We strongly believe consultants are an integral part of the YPG and Trader operating model and are important for the delivery of our IS/IT infrastructure, development and support projects. We trust these changes will assist all of us in our future business relationships.

For more information please contact one of my Program Directors or my coordinator for this change Serge Wong at 514-934-6883 or via email at [serge.wong@ypg.com](mailto:serge.wong@ypg.com). We appreciate your understanding and cooperation.

Regards,
